Join us for an Important Awareness Drive!

ACTIVITIES-

- Awareness Measures and Initiatives
- Education Sessions
- Interactive Discussions

On the 9th of August 2024, Bogijuli High School, a community run school located amidst the lush green surroundings of Bogijuli Forest Village, Balipara Block, Sonitpur District, Assam hosted a transformative environmental awareness drive, an initiative by the Assam Investment Advisory Society (AIAS) in association with the Pollution Control Board, Assam (PCBA) supported by Mahila Shakti Kendra(MASK). This initiative brought together a diverse group of participants, including students, educators, and community members, all united by a shared commitment to fostering a sustainable future.

The event achieved remarkable success, attracting participation from five schools across the region, representing government, community, and private institutions. The attendees' enthusiasm was evident as they actively engaged in a variety of activities focused on environmental protection and sustainable living.

Dr. Arup Kumar Misra, the esteemed Chairman of the Pollution Control Board, Assam, honored the event as the Chief Guest and delivered an inspiring and motivational speech. He stressed the significance of environmental responsibility and urged the students to actively contribute to building a greener future. His interactive session with the students was especially impactful, as he directly engaged with the younger generation, guiding them on practical steps to safeguard the environment.

Shri Jayanta Kumar Saharia, Regional Director of the Pollution Control Board, Assam, also addressed the gathering. He shared a compelling message about the critical role of environmental education and protection in ensuring a sustainable future for Assam and beyond.

Shri Nitu Kumar Kalita, Executive Operating Officer of AIAS, expressed his gratitude to the members of the Pollution Control Board for their support in making the event a success. He urged the students to remain thoughtful and proactive in their interactions with nature, reinforcing the idea that small actions can lead to significant positive impacts on the environment.

The students of Bogijuli High School played a crucial role in the event, demonstrating their talents through a variety of performances, including dances, songs, and skits, all centered around the theme of environmental stewardship. These performances not only entertained but also educated the audience on the significance of environmental protection.

Additionally, the entire School Management Committee participated efficiently in the meticulous planning and hosting of the event, contributing significantly to its overall success.

PROGRAM HIGHLIGHTS

The day was filled with interactive discussions, educational sessions, and awareness initiatives, all designed to inspire and empower the participants to take concrete actions toward environmental conservation. The collaborative efforts of AIAS, PCBA, and the participating schools highlighted the power of community engagement in driving environmental change. The event concluded with a renewed commitment from all participants to continue working together for a greener Assam. The enthusiasm and energy displayed by the students, educators, and community leaders are a testament to the growing momentum of environmental awareness in the region.

LEARNINGS FROM THE EVENT

1. **Youth as Change-Makers:** Engaging students in environmental initiatives is crucial; their enthusiasm and creativity can drive significant impact.
2. **Power of Collaboration:** Collective efforts between schools, authorities, and organizations enhance the reach and effectiveness of environmental messages.
3. **Interactive Learning:** Direct engagement with experts deepens understanding and inspires actionable change.
4. **Cultural Integration:** Using cultural performances to convey environmental concepts makes the message more accessible and engaging.
5. **Importance of Planning:** Meticulous organization and coordination are essential for the success of such events.
6. **Ongoing Commitment:** Continuous efforts and follow-up are necessary to sustain momentum and achieve long-term environmental goals.

CONCLUSION

This awareness drive at Bogijuli High School marks a significant step forward in the journey towards a sustainable future in Assam. By bringing together key stakeholders and encouraging a spirit of collaboration and learning, the event has set the stage for continued efforts in environmental conservation.
